Major IFRSs			
IFRS 9, <i>Financial Instruments</i> (FI) (IAS 39 replacement)			
The objective of this project is to improve the decision-usefulness of financial statements for users by simplifying the classification and measurement requirements for financial instruments. The project will ultimately replace IAS 39, <i>Financial Instruments: Recognition and Measurement</i> .	Major impact on IPSASs 28–30.	The first phase culminated in the issuance of chapters of IFRS 9 dealing with classification and measurement of financial assets in November 2009 and financial liabilities in October 2010.	At the April 2010 meeting, the IPSASB agreed to defer proposing amendments to IPSASs 28–30 until after the IASB completes its project on IFRS 9, which is expected to be completed in 2013.
FI—Classification and Measurement In January 2012, the IASB and the FASB announced that they will work together to seek to reduce differences in their respective classification and measurement models for financial instruments.	Major implications for the classification and measurement provisions in IPSAS 29.	An ED proposing limited amendments to IFRS 9 was issued in November 2012 with a consultation period to 28 March 2013. An IFRS is expected H1 2014.	
FI—Impairment This is the second phase of the project to replace IAS 39 with a new Standard (IFRS 9). It proposes adoption of the “expected loss model” rather than the “incurred loss model” that underpins the impairment approach in IAS 39.	Major implications for the impairment provisions in IPSAS 29.	An ED, <i>Financial Instruments: Amortised Cost and Impairment</i> was issued in November 2009 with a consultation period that expired in June 2010. A supplementary ED was issued on 31 January 2011 with a consultation period to 1 April 2011. An ED was issued on 7 March 2013 with a

		consultation period to 5 July 2013. An IFRS is expected H1 2014.	
FI—Hedge Accounting This is the third phase of the project to replace IAS 39 with a new Standard (IFRS 9). The aim is to simplify and replace the hedge accounting requirements of IAS 39. This includes considering: <ul style="list-style-type: none"> Portfolio hedging; Simplifying cash flow hedge accounting; Implications on hedge accounting for net investments in a foreign operation. 	Implications for the hedge accounting requirements of IPSAS 29.	An ED, <i>Hedge Accounting</i> was issued on 9 December 2010 with a consultation period to 9 March 2011. A review draft of an IFRS (as a chapter of IFRS 9) on general hedge accounting was issued in September 2012 and the final is expected in H2 2013. An IFRS on hedge accounting expected Q4 2014. A DP on portfolio (or macro) hedge accounting is expected Q1 2014.	
Insurance Contracts			
The overall aim of the project is to provide consistent and sound requirements for accounting for insurance contracts. The project has been conducted in 2 stages. Phase 1 culminated in the publication of IFRS 4, <i>Insurance Contracts</i> in 2004. Phase 2 will result in the replacement of IFRS 4.	There is no direct impact on IPSASs at present as the IPSASB does not have an IPSAS equivalent of IFRS 4. There are likely to be implications for the scope sections of IPSASs 28–30 when IFRS 4 is replaced.	An ED was issued in July 2010, with a consultation period that expired in November 2010. Roundtables were held in December 2010. A revised ED was issued on 20 June 2013 with a consultation period to 25 October 2013.	Accounting for insurance contracts has not generally been considered a high priority in IPSASB deliberations.

The deadline for comment was 30 November 2012. An ED was issued in 3 October 2013 with a comment period to 3 March 2014. Conceptual Framework			
A comprehensive project focusing on the elements of financial statements, measurement, reporting entity, and presentation and disclosure.	The IPSASB has made it clear that it is developing its own Conceptual Framework, not an interpretation of the IASB's Framework. However, the IASB's approach can inform the IPSASB's approach.	<p>On 28 January 2013, a discussion forum on the topic of disclosures in financial reporting was held. Key messages from the forum were communicated in a feedback statement on the disclosure forum issued on 28 May, 2013.</p> <p>A Discussion Paper was in July 2013 with a consultation period to 14 January 2014. Additionally, a series of Conceptual Framework outreach and roundtable sessions was held in London, Toronto, Sao Paulo and Tokyo, throughout October and November 2013.</p>	The IPSASB's timetable expects completion of its Framework in 2014 so it is likely to be in advance of the IASB in a number of areas.
