Agenda Item 8: Leases

João Fonseca
Manager, Standards Development and Technical Projects
IPSASB Meeting
Toronto, Canada
September 20-23, 2016
Material Presented for Decision at this Meeting

Decision Items

• Agenda Item 8.2.1–Lessor—Applicability of grant of a right to the operator model in IPSAS 32 to lessor accounting (right-of-use model)
• Agenda Item 8.2.2–Lessor—IPSAS 13, IFRS 16 and right-of-use model recognition and requirements (including property and vehicle leases)
• Agenda Item 8.2.3–Sale and leaseback transactions
• Agenda Item 8.2.4–Leases that transfer ownership
• Agenda Item 8.2.5–Lessees—Recognition Exemptions
Material Presented for Decision at this Meeting

Other supporting items

• Agenda Item 8.3.1—Leases in the public sector—Fact patterns
• Agenda Item 8.3.2—Lessor accounting—History of IASB’s project
Sale and leaseback transactions (Agenda Item 8.2.3)

- **IFRS 16**
  - Sale?
    - **Yes**, if it satisfies the performance obligation requirements in IFRS 15
    - **No**, if it does not satisfy the performance obligation requirements in IFRS 15
  - IASB’s view:
    - This requirement “will be beneficial for both preparers and users of financial statements because it will increase comparability between sales entered into as part of a sale and leaseback transactions and all other sales.”

- **IPSAS 9** *Risks and rewards of ownership* approach
- **IPSAS 23** *Present obligation* approach
Sale and leaseback transactions (Agenda Item 8.2.3)

**Step 1**

**Option 1**
Do not include any requirement now (current situation in IPSAS 13)

**Option 2**
Include requirements based on current IPSASs (IPSAS 9 and 23)

**Step 2**

Include the performance obligation approach later (consequential amendment of the new IPSAS on Revenue)
Sale and leaseback transactions (Agenda Item 8.2.3)

Decision required

Does the IPSASB support the adoption of Option 1 or Option 2 in the Exposure Draft on Leases?
Leases

Leases that transfer ownership (Agenda Item 8.2.4)

- Clarification on leases that transfer ownership (TBG request)
- IPSAS 13 and IFRS 16 (lessor accounting) follows a risks and rewards approach (finance and operating lease)
- Right-of-use model in lessor accounting needs a previous assessment on whether it is a financed sale of the underlying asset
- The IASB considered whether to include requirements in IFRS 16 to distinguish a lease from the sale or purchase of an asset
Leases

Leases that transfer ownership (Agenda Item 8.2.4)

• The IASB did not include requirements in IFRS 16 to distinguish a lease from the sale or purchase of an asset because:
  – There was little support from stakeholders for including such requirements
  – The accounting for leases that are similar to the sale or purchase of the underlying asset would be similar to that for sales and purchases applying the respective requirements of IFRS 15 and IAS 16
  – IFRS 16 applies to contracts that convey the right to use an underlying asset for a period of time and does not apply to transactions that transfer control of the underlying asset to an entity—such transactions are sales or purchases within the scope of other Standards (for example, IFRS 15 or IAS 16)
Leases

Leases that transfer ownership (Agenda Item 8.2.4)

- **IFRS 15**  Performance obligation approach
- **IPSAS 9**  Risks and rewards of ownership approach
- **IPSAS 23**  Present obligation approach

**Staff’s proposal**

- Not to include guidance on leases that transfer ownership
- Consistent with IASB’s approach
Leases that transfer ownership (Agenda Item 8.2.4)

• However, guidance in IPSAS 9 might:
  – Not be sufficient; or
  – Lead to different conclusions if IFRS 15 was applied.

• Paragraph 32 of IFRS 16 provides additional subsequent measurement requirements for lessees for leases that transfer ownership

• Staff did not identify a public sector specific reason that warrants departure from IFRS 16 in the subsequent measurement of the right-of-use asset in leases that transfer ownership.
Decision required

Does the IPSASB want to:

a) Provide guidance on leases that transfer ownership in the Exposure Draft on Leases?

b) Provide additional guidance on leases that transfer ownership in IPSAS 9?

c) Retain the paragraph 32 of IFRS 16 in the Exposure Draft on Leases?
Lessee—Recognition exemptions (Agenda Item 8.2.5)

Decision required

Does the IPSASB support the proposed Basis for Conclusions’ paragraphs on recognition exemptions, including threshold of leases for which the underlying asset is of low value in the Exposure Draft on Leases?
Leases

Lessor Accounting—Context of Development of Options

• Methodology of Analysis—Boundaries
Leases

Lessor Accounting—Impact of IPSAS 32

- Granting rights to use the underlying asset (right to access/operate)
- Mirror of IFRIC 12, Service Concession Arrangements
- Follows a control based approach to identify the underlying asset
Leases

Lessor Accounting—Impact of Conceptual Framework

- Follows a control based approach for assets
- Assets are not recognized as portions (rights)
- Derecognition criteria (existence of uncertainty)
Lessor Accounting—Rules of Road

- Methodology of Analysis—“Rules of the Road”

IFRS (Private Sector)

- Terminology
- Public sector guidance
- Public sector issues
- Public sector examples

IPSASs (Public Sector)

All decisions will be made in the context of considering:

- Consistency with Conceptual Framework
- Internal consistency with existing IPSASs
Leases

Lessor—Right-of-use model (Agenda Item 8.2.1)
Appendix A

- Relationship between leases and other transactions

**Financing**
The supplier does not derecognize the underlying asset and shall recognize a financial liability equal to the proceeds in accordance with IPSAS 29.

**IPSAS 17 para. 82**
Does the contract meet the requirements for derecognition of the underlying asset?

- Yes
- No

**Sale of Goods**
The transferor/seller derecognizes the underlying asset and shall recognize revenue according to IPSAS 9 and a trade receivable and apply IPSAS 29 to the trade receivable.

**Lease**
The transferor/lessor does not derecognize the underlying asset, reclassifies the underlying asset as a leased asset and recognizes a lease receivable and a lease liability (unearned revenue).

- Yes
- No

**Service Concession**
The transferor/grantor does not derecognize the underlying asset, reclassifies the underlying asset as a service concession asset and recognizes a receivable and a liability (unearned revenue) according to IPSAS 32.

- Yes
- No

**Service**
The supplier does not derecognize the underlying asset and recognizes revenue according to IPSAS 9.

- Yes
- No

**Is the contract a service?**

- Yes
- No

**Is the contract transferring the right to use an asset?**

- Yes
- No

**Is the contract transferring the right to operate an asset?**

- Yes
- No

**IPSAS 17 para. 82**
Does the contract meet the requirements for derecognition of the underlying asset?
## Leases

### Lessor—Right-of-use model (Agenda Item 8.2.1)

</tbody>
</table>
Lessor—Right-of-use model (Agenda Item 8.2.1) Appendix A

• Analysis of Accounting Requirements-Conclusions

  1) Consistent with the right to operate model in IPSAS 32;

  2) Staff did not identify an economic reason not to adopt the right-of-use model to lessor accounting;

  3) Consistent with the Conceptual Framework; and

  4) Additional guidance on the distinction between a lease and service concessions may be needed in IPSASB’s literature.
• Analysis of Accounting Requirements-Conclusions

1) Reinforces accountability and decision making in the public sector because the underlying asset is always recognized in the lessor’s financial statements;

2) Enhances consolidation procedures within the public sector for public sector entities that apply IPSAS;

3) Prevents the non-recognition of the underlying asset in both the lessee’s and the lessor’s financial statements, unlike IFRS 16; and

4) Prevents distortion of the financial statements in cases where the public sector entity is both a lessee and a lessor in different lease contracts.
Leases

Lessor—Right-of-use model (Agenda Item 8.2.1)

• **Appendix B**
  – Concerns of IASB’s Constituents are addressed

• **Appendix C**
  – The advantages of the right-of-use model reflect the disadvantages of the risks and rewards model:
    • Objectives of financial reporting
    • Qualitative Characteristics
    • Consistency with Other IPSAS
    • Public Sector specific reasons
    • Other reasons (centralized lessors and information asymmetry)
  – Consolidation (public sector entities that apply IPSASs VS commercial public sector entities that apply IFRSs)
Leases

Lessor—Right-of-use model (Agenda Item 8.2.1)

- **TBGs views**
  - The diverging criteria between service concession and leases can be an obstacle in applying the grantor model to a lease contract because they are not always crystal clear;
  - Adopt a receivable and a residual asset approach to lessor accounting.

Leases

Lessor—IPSAS 13, IFRS 16 and right-of-use model recognition requirements (Agenda Item 8.2.2)

Decision required

• Does the IPSASB support adoption of the right-of-use model for lessor accounting or retention of the risks and rewards model in the new IPSAS on Leases?
